

JUNE 2016

Dear readers,

We would like to congratulate the whole **MOSAIC** consortium for receiving funding to develop a new concept of CSP technology. AMIRES is happy to take part in the project as the Exploitation, Communication and Dissemination Work Package Leader.

On the other hand, we are sorry to say farewell to our dear colleague **Anežka Palková**, who has very well managed the [MEDILIGHT](#) and [LASSIE-FP7](#) projects. We wish Anežka all the best in her future endeavors. At the same time, we welcome in our team [Martina Urbánková](#), who came from the health care industry. Martina will be taking on the [MEDILIGHT](#) project. Click [HERE](#) to see Martina's profile. [Elena Turco](#) has become the Project Manager of the [LASSIE-FP7](#) project.

NUMBER OF THE MONTH JUNE

36

million EUR has been awarded to 16 innovative projects under the fourth round of the Fast Track to Innovation (FTI) scheme.

The projects include advanced composite material technology for wind turbine blades, a laser robot that detects weld defects in ship hulls, a perfected reperfusion device used for resuscitation, ocean energy technologies and a new faster test for antibiotic susceptibility testing in bacteria. The 16 projects involve 72 partners in 16 countries to help bring their innovation on the market faster. Click [HERE](#) for more details.

WHAT'S NEW IN EUROPEAN R&D

Take Part in the Study on Biomaterials Translation

As a partner of the European Society for Biomaterials (ESB), we invite you to **take part in the study** by filling out a **survey** on the **status of translation of biomaterials research in Europe**. It will take only few minutes. The study aims also to map resources and specialised facilities across our continent. Click [HERE](#) if you are a Swiss organization and [HERE](#) if you are a Czech organization. To find out more about ESB click [HERE](#).

NOKIA Innovation Challenge 2016 Opened

NOKIA has opened a **call for innovative ideas, technologies, or business models** addressing opportunities **in IoT scope**. It is looking for innovations in the provinces of connected automotive, public safety, security, industry 4.0, digital health, utilities and smart cities. The deadline for application submission is 15 August, 2016. Click [HERE](#) for details.

KIC InnoEnergy Reopens 2016 Call for Innovation Proposals

The Call is looking for applications relating to innovations in KIC InnoEnergy's eight 'Thematic Fields'. The deadline for submission of applications is 11 October, 2016. To see the Call details click [HERE](#).

- Clean coal and gas technologies
- Energy storage
- Energy efficiency
- Energy from chemical fuels
- Renewable energies
- Smart and efficient buildings and cities
- Smart electric grid
- Sustainable nuclear and renewable convergence

Simulate Online Filing for the New Unitary Patent

In preparation for the Unitary Patent, EPO is giving the patent community the opportunity to **test and give feedback on the new online procedure for registering unitary effect**. The deadline for feedback submission is 31 July 2016. Click [HERE](#) for more information and instructions.

HORIZON 2020

Publication Release: EU funds working together for jobs & growth

Are you interested in finding out more about **the synergies between the Horizon 2020 programme and the European Structural and Investment Funds (ESIF)**? You may want to read this [PUBLICATION](#), which describes the rationale for developing links between the different funding sources and explains how they can be combined. It showcases examples of synergies that have emerged at strategic, programming and project implementation levels and also highlights initiatives with a high potential for synergies.

FROM OUR PORTFOLIO

FREE Access to EffiBUILDING Database

At AMIRES we are visionary, so we believe that [EffiBUILDING](#) will be in the nearly future the **most important sharing platform** in the world for products and prototypes for the energy efficiency of buildings. For this purpose, the database is now **FREE OF CHARGE**. You are welcome to choose from two types of membership to join the [EffiBUILDING](#) community! Click [HERE](#) for more information.

PI-SCALE Foundations in Place

This month marks the first six months of the [PI-SCALE](#) implementation with solid foundations already in place and effective cooperation among partner institutions established. The **pilot line and its services** have been presented at different events around Europe. Explore your exciting design options with flexible OLEDs at www.pi-scale.eu, and stay tuned for the latest information.

MEDILIGHT to be Featured at ISOCS & MINAB-ICT 2016 Workshop

Dr. Dionysios Manassis of the Technical University Berlin and coordinator of the [MEDILIGHT](#) project presented the **latest news from the research on chronic wound healing using the personalised light therapy** at the ISOCS & MINAB-ICT 2016 Workshop in Otranto (Lecce). Click [HERE](#) to see the presentation and [HERE](#) to find out more about the event.

LASSIE-FP7 to be Presented at the Led Professional Symposium + Expo 2016

Dr. Oscar Fernandez from CSEM will present the [LASSIE-FP7](#) project with a speech entitled “**Ultrathin Direct-lit LED Module with Beam Shaping Thin-film Optics**” at LpS 2016, the Leading European Lighting Conference held on 20-22 September 2016 in Bregenz, Austria. The 6th International LED professional Symposium +Expo (LpS 2016) will host 100+ lectures, 4 workshops, 3 forums and 3 top-level keynotes. In addition, over 100 exhibitors will present latest innovations and the current status of LED and OLED lighting. Further information can be found [HERE](#).

AMIRES Chaired Sections of IndTech Conference

On 22 June, [Dr. Rudolf Fryček](#), the CEO of AMIRES chaired a session ‘**Innovative Financing Solutions for Scaling up and Large Scale Facilities**’ and led a round table discussion ‘**Strong and efficient system for open innovation**’ at the Industrial Technologies 2016 Conference. Click [HERE](#) to read the key session takeaways.

WHERE YOU CAN MEET AMIRES

REinEU 2016 – Registration Opened

Registration has opened for **Re-Industrialisation of the European Union 2016 (REinEU2016)**, a major industry innovation conference which will take place in Bratislava, Slovakia from 26 to 28 October 2016 (click [HERE](#)). Starting 10 September, you will have an opportunity to book partners for the one-on-one meetings. To **see profiles of our consultants**, whom you can meet there, please click [HERE](#).

LASSIE-FP7 Workshop at the University of L'Aquila

LFoundry S.r.l., a member of the [LASSIE-FP7](#) consortium, organises a workshop on 6 July 2016 at the University of L'Aquila, Italy. Prof. Giulio Antonini from the faculty of Electrical Engineers will open the workshop. The last **achievements in the [LASSIE-FP7](#) project** will be presented by the partners. [AMIRES](#) will present **some EU projects, upcoming H2020 topics, trends and applications on lighting technologies**. LFoundry will close the workshop with a presentation on the development of advanced optical sensors. Click [HERE](#) for more information. And contact [Elena Turco](#) to register.

ICT Proposers' Day Bratislava

Meet [AMIRES](#) at the 26-27 September 2016 ICT Proposers' Day in Bratislava, a networking event promoting European ICT Research & Innovation. [Dr. Rudolf Fryček](#), CEO of AMIRES will be there to promote **Swiss SMEs and industries coached by AMIRES**. Click [HERE](#) to register. Click [HERE](#) to contact Dr. Fryček.

AMIRES SERVICES

Hold Your Consortium Meeting in Prague

Are you looking to make a progress on your project and at the same time support your consortium team spirit? Hold your consortium meeting in Prague! As a partner with a long term experience and an extensive network of collaborators, [AMIRES](#) can help you hold professional, enjoyable, and cost-efficient meetings and social events.

For more information please contact [Martina Urbankova](#).

If you would like to find out more about our services, **please do not hesitate to [CONTACT US](#) for more information.**
